

TAB-TRAC Ultra Secure

Secure Critical Information While Saving Space

Do you need to control access to specific information within your files? If so, our TAB-TRAC Ultra Secure storage solution makes it possible to secure your critical information. Instantly add security to an entire aisle of mobile filing! The TAB-TRAC Ultra Secure solution is ideal for meeting the privacy requirements for your confidential files.

Benefits

Offers total security of confidential files

You are in charge of level of access and security for each aisle

Effortless operation with spring-loaded design

Easily installed across the aisle on shelving front or end panel

When locked, an aisle is fully secured, front and overhead

Note: Suggested for use on TAB's mobile systems (Manual, Mechanical Assist, EXPRESS-TRAC and Modular Mobile). TAB does not approve using this assembly on POWER-TRAC systems.

TAB STORAGE SYSTEMS

Specifications

- 2" Bumpers (4) per carriage for 4" minimal spacing of carriages required
- Top screen minimum 14-gauge steel plates
- Flat half of top screen mounted on one side of aisle, offset on opposite side, with offset overlapping the flat when aisle is closed
- Use padlock approved for the security level of items being stored (TAB does not supply the padlock)
- End panel assembly - Aluminum with dual spring-loaded hinge and hasp with pry-preventing backing plate installed across aisle on shelving front or end panel
- Top screen has 70% minimum opening to facilitate sprinkler water entry and meet fire code requirements

View of top screen closed

The solution consists of an ultra secure top screen which is a flat black offset assembly that is mounted on top of cabinets or shelving. It also consists of an ultra secure end panel assembly (or shelving mount) that is attached on a hinge that covers the side openings between the cabinets and shelving.

End Panel assembly open

End Panel assembly being closed

End Panel assembly fully closed & locked
