

Data-Driven Solutions With Smart Lockers

LOCKER ACCESS OPTIONS

Access your locker with your smartphone, RFID card, or even smartwatch. Smart lockers can be easily integrated with other third-party systems and technologies for a seamless user experience

RESERVE A LOCKER & DESK

Reserve a desk and a locker all within the same app. Seamlessly transition your office into a flexible working space while empowering your employees through an intuitive app

MIDWEEK CROWDING

Smart lockers provide insight into trends of employees coming and going – allowing you to make informed decisions on how many lockers you need and how they should be configured

COLLABORATIVE VS QUIET ZONES

With smart lockers, the real-time data can help provide insight into the usage of lockers that are being used in the various zones throughout the office

LOCKER TO EMPLOYEE RATIO

Never worry about locker to employee ratio with smart lockers. The data provides insight into the capacity percentages – allowing you to add additional locker columns or relocate locker banks if necessary

DATA FOR EXTERNAL BI REPORTING

Need to do a deep dive analysis? Export the data and import it into your own 3rd party BI reporting tool

HOURLY REPORTING

Having trouble with locker squatters? User reports help provide insight as to who is using lockers, for how long, and how often they are or are not accessing them

OCCUPANCY REPORTING

Gain insight into if your lockers are at max capacity or rarely in use. Understand if it is all locker banks or just specific ones with occupancy reporting

LOCKER USAGE

See which lockers are being used the most. Noticing the bottom lockers aren't as popular? Trade out bottom lockers for large drawers for employees to store larger items or use as extra office storage

EMPLOYEE USAGE: TIME OF DAY

Gain insight into what time of day employees are using lockers the most. All the information you need to provide the best experience for employees

VISITOR LOCKERS

Providing personal storage for visitors is often overlooked. The same locker bank can have both assigned and unassigned lockers so visitors can have specific lockers just for them
