Electrical Conversion Solution

Turn your old high-density storage system into an easy-to-use electric system.

With TAB's Electrical Conversion Solution, you can convert any existing high-density (HD) storage system into an electric option that's safer, more efficient, and has increased security. Convert your mechanical HD storage or upgrade your old electrical systems easily with plug-and-play technology.

Why Choose TAB's Electrical Conversion Solution?

- **Make your Storage Safer** – Compatible with infrared, digital sweep, and safety tape systems, upgrading your storage with TAB's electrical conversion ensures you get the most modern safety features.
- **Make Security Easier** – The system uses a programmable transponder so you can configure it to your needs. No keys, locks, or passcode sharing, with easy permission changes in high-turnover areas.
- **User Experience** – The plug-and-play nature of the technology allows for a rapid installation – no special technical skills or training required. The electronic keypad is intuitive and features "Hands Full" activation.
- **Reliable and Long-lasting** – With no moving parts, you can easily extend the life of your electrical system. Additionally, easy-to-interpret diagnostic lights appear on the keypad to simplify and speed up problem identification and correction.

Increase the safety, security, and reliability of your high-density storage by converting it to an electrical system.

Features

- Plug-and-play installation
- Motor control for reduced wear
- Install the new system into your existing storage carriages
- Allow for records access during the upgrade/conversion
- Offset costs with new savings on maintenance
- Compatible with modern technology like biometrics, fingerprint devices, facial recognition, and more
- Easy setup through web servers and smart devices (smartphone or tablet)
- Change aisle access, create multiple aisles within a section, and change stopping distances all through remote access

There is a lot more to TAB Storage

Speak with a member of the TAB Storage team today to learn more about our diverse range of multi-purpose storage solutions:

High-Density Mobile Storage

Metal Shelving Solutions

Lockers (Traditional and Smart)

Filing and Storage Cabinets

Public Safety/Weapons Storage

Technology Storage

Secure, Efficient and Versatile.

TAB offers a wide range of storage solutions from a simple filing cabinet to a high-density mobile storage solution and everything in-between. We can help you store just about any physical object you can imagine, including records, manufacturing materials, retail inventories, equipment, weapons, museum and library collections, and more.
